## Our KPP Committee and Helpers Hard at Work

Our KPP Committee and Kindy parents have been working hard to reconfigure the layout of the Kindy play area. It was a hive of activity in the last week of term 3 to move the beloved Kindy cubby to the opposite side of the yard, build a new yellow sandpit for sandcastle building and play, which required some paving to provide clear access to the already established white sand play area! And ..... the Kindy children are loving it!! Thank you to all of the volunteers who came in and did such a wonderful job!!

## Pre Primary is hitting the beach!!

Our Pre Primary classroom has been transformed into an undersea grotto complete with a Marine Biology Lab for the students to explore. Our school has focused on developing an 'explicit instructional model of teaching' as well as keeping up with our school priority of 'play-based education in the early years'. There is lots happening in the Pre Primary in the lead up to our students entering Year 1 next term!!

The classroom is filled full of pirate flags, beach toys, sea animals, student work, marine biology equipment and much much more!!!

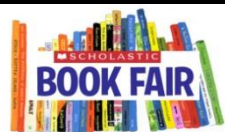

Maths warm-ups are a part of Maths every day in Pre Primary. This is a way of revising all the concepts covered throughout the year. These are a fast paced part of the lesson that activates students prior knowledge before being introduced to a new concept .

The 'Marine Biology Lab' in the classroom is a hit with the students and promotes all kinds of investigative conversations between students and in the class.

### Book Fair

Book Fair is a great opportunity for the community to have access to a 'pop up' book shop for children. All sorts of books, ranging from junior fiction to young adult and lots of non-fiction interest books will be available for purchase from next Tuesday until Thursday afternoon at very reasonable prices. The school receives a commission on sales which goes towards purchasing new books for the school library. A great chance to do some Christmas shopping!
